ABOUT

UX/UI Designer & Researcher with a strong scientific background and extensive experience in field research, data analysis, and practical problem-solving. My approach to design is shaped by values that connect my scientific training with my creative practice. I place strong emphasis on analytical rigor, curiosity, and lifelong learning as drivers of both personal and professional growth.

A strong commitment to ethics, transparency, and accountability shapes how I work with others and make decisions. Combined with creativity, adaptability, and teamwork, these values support the way I respond to challenges with flexibility and openness. They continue to guide my professional journey and the experiences outlined below.

DESIGN EXPERIENCE

UX/UI Design Practice - Neuefische GmbH
Jun-Sep 2025

- Intensive training in user-centered design, UX research, and interface design.
- Conducted user research and translated insights into personas, user journeys, and design solutions.
- Created wireframes, high-fidelity UI designs, and interactive prototypes.
- Applied usability, accessibility, and design system principles in project-based work, including a capstone case study.

OTHER EXPERIENCES

Ruby Backend Developer - Surveyeah
Jul 2023 - Feb 2025

- Implemented end-to-end features based on user stories, adapting designs and workflows to handle unexpected challenges.
- Managed database and system updates to maintain reliability, consistency, and operational stability.
- Performed maintenance tasks, refactoring, and code improvements to enhance platform performance and maintainability.

Java Backend Developer - Accenture Argentina
Sep 2022 - Dec 2022

- Developed and maintained backend services, implementing business logic and ensuring reliable data operations.
- Analyzed and resolved QA-reported bugs to maintain system stability and optimize performance.
- Provided technical support to colleagues, fostering team collaboration.

Java Backend Developer - Globant
May 2021 - Aug 2022

- Investigated and fixed QA-reported bugs, maintaining system stability and improving overall performance.
- Assisted in the maintenance and refinement of client microservices, streamlining existing business flows and enhancing reliability.
- Offered technical guidance and collaboration to team members, promoting effective teamwork.

Teaching Assistant - National University of La Plata
Nov 2018 - Apr 2022

- Guided students in understanding, analyzing, and interpreting complex processes and developing logical connections, fostering structured thinking and problem-solving skills.
- Introduced practical methodologies and field techniques, supporting hands-on learning and application of theoretical concepts.

Geologist - Department of Hydraulics, Faculty of Engineering, National University of La Plata
Sep 2015 - Mar 2016

- Supervised field campaigns and conducted geological surveys, analyzing complex data to identify patterns, risks, and critical features.
- Integrated field observations and laboratory results to develop comprehensive geotechnical models, supporting informed decision-making

Geologist - BfU of Argentina S.A
Mar 2015 - Sep 2015

- Conducted field inspections and mapping, collecting and analyzing soil, sediment, and water samples to support project assessments.
- Supervised drilling operations and sampling procedures, ensuring data quality and adherence to protocols.
- Monitored field tests to evaluate aquifer performance and water level recovery, synthesizing results for further analysis.

Geologist - LCV S.R.L
Aug 2014 - Feb 2015

- Conducted laboratory analyses on surface and subsurface samples, integrating multiple techniques to interpret material properties.
- Complemented sample descriptions with advanced imaging and measurements, including tomography and porosity analysis.
- Synthesized technical results to support decision-making and project assessments.

Geologist - Cementos Avellaneda
Oct 2012 - Mar 2013

- Supported exploration activities, conducting detailed sample analyses and measurements to assess material quality.
- Compiled and synthesized data to produce clear, structured reports for project evaluation.

EDUCATION

Backend Developer Java - Ada
Jul 2020 - Apr 2021

Ph.D. in Natural Sciences- National University of La Plata, Faculty of Natural Sciences and Museum
Apr 2016 - Jul 2023

Sedimentology, fossil traces and diagenetic evolution of the Calafate Formation, Upper Cretaceous of the Austral Basin, Province of Santa Cruz, Argentina.

Publications available at [Google Scholar](#).

B.A. in Geology - National University of La Plata, Faculty of Natural Sciences and Museum
Mar 2008 - Dec 2013

COURSES

MongoDB SI Associate Certification Program
Mongo DB
Nov 2022

Agile Methodology Scrum
Ada
Mar 2021

Fundamentals of Project Planning and Management
University of Virginia Darden School of Business
Mar 2020 - Jun 2020

COMPETENCIES

Design

Research & Analysis: User research (primary and secondary), User Personas, User Journeys

Information & Architecture: Information Architecture, Wireframing

Prototyping: Prototyping, Visual Design, Responsive Design, Microinteractions

Testing: Usability Testing, Accessibility

Methodologies & Systems: Design Thinking, Design Systems

Design Tools: Figma, Adobe Illustrator

Development

Languages & Frameworks: Java 8, Spring Boot, JUnit, Ruby, Ruby on Rails

Build and Automation: Maven, Jenkins

Databases: DBeaver, Microsoft SQL Server, PostgreSQL

Quality Control & Code Analysis: SonarQube

Version Control: Git, GitHub

Task Management: Jira, Trello

Geology

Fields: Sedimentology, Ichnology, Diagenesis, Petrography

Geochemical & Analytical Techniques: XRD, XRF, SEM-EDS, ICP-MS

Fieldwork & Geospatial Analysis: Mapping, Hydrogeological Testing and Analysis, Sampling, Geospatial Analysis

LANGUAGES

Spanish 	English 
Native	Fluent
Italian 	German 
Beginner	Beginner

HOBBIES

-  F1
-  Theater
-  Mystery novels
-  Ski and ice skating
-  Knitting and crochet
-  Boardgames and puzzles
