ABOUT

Geologist and Ph.D. in Natural Sciences specialized in detailed characterization of siliciclastic systems to expand the existing knowledge and support real-world applications. Skilled at integrating data from multiple sources to produce robust and high quality evidence to aid decision making. Experienced with backend programming and translating ideas into tangible solutions to directly support and accelerate business goals. Motivated by complex challenges where science, communication, and technical considerations intersect to bring meaningful solutions. Committed to connect research communities and make knowledge accessible.

EDUCATION

Ph.D. in Natural Sciences | National University of La Plata (Anabin: H+) | Argentina

Apr 2016 - Jul 2023

- Thesis: Sedimentology, fossil traces and diagenetic evolution of the Calafate Formation, Upper Cretaceous of the Austral Basin, Province of Santa Cruz, Argentina. [Link](#).

Geology Degree | National University of La Plata (Anabin: H+) | Argentina

Mar 2008 - Dec 2013

RESEARCH EXPERIENCE

Scientific Production

- **Odino-Barreto A.L.**, Gómez-Peral L.E., Richiano S., Macchioli Grande M., Borya A., Poire D.G., Bahniuk A.M, F. Cury, L., 2021. Geochemical and mineralogical evidence of an offset in the Andean arc recorded in the Upper Cretaceous marine deposits of the Austral-Magallanes basin, Argentina. *Journal of South American Earth Sciences* 111, 103426.
- **Odino-Barreto A.L.**, Richiano S., Gingras M.K., Poire D.G., 2020. Integration of sedimentological and ichnological analysis on the wave-dominated deposits of The Maastrichtian Calafate Formation, Austral-Magallanes Basin, Argentina. *Marine and Petroleum Geology*, 121, 104621.
- Omarini Fernández J., Lescano M.A, **Odino-Barreto A.L.**, Campetella D.M., Tunik M.A, Garban Gon G.J., 2020. Palaeoenvironmental conditions for the preservation of organic matter during the late Hauterivian in the Neuquén Basin (Western Argentina). *Marine and Petroleum Geology* 121, 104469.
- Publications: full list available at [Google Scholar](#) and [ORCID](#).

International Research Experience | University of Alberta | Canada | Aug - Dec 2019

- Conducted research on shallow- and marginal-marine systems using drill-core data, ichnological and sedimentological analyses of the Sunburst/Swift Formation (Alberta, Canada), in collaboration with the Ichnology Research Group under the supervision of Prof. Murray K. Gingras. This research stay was funded through the Emerging Leaders in the Americas Program (ELAP), Global Affairs Canada.

Scholarships & Awards

- Emerging Leaders in the Americas Program (ELAP) Scholarship, Global Affairs Canada, 2019.
- Doctoral Fellowship, National Scientific and Technical Research Council (CONICET), Argentina, 2016–2021.

Conference Presentations | Argentina

- XVI Argentine Meeting of Sedimentology, General Roca, Río Negro, Nov 26-30, 2018. Paleoenvironmental Evolution of an Estuarine Sedimentary System (Calafate Formation, Cretaceous, Austral Basin).
- XX Argentine Geological Congress, San Miguel de Tucumán, Aug 7-11, 2017. Compositional Analysis of the Calafate Formation (Maastrichtian) in the Cerro Calafate Area, Austral Basin, Santa Cruz Province, Argentina: Preliminary Results.

Courses Attended

- Geochemistry of Petroleum, Organic Sedimentary Structures, Petrography of Clastic and Carbonate Rocks, Field Workshop on Fossil Traces II, Marine and Coastal Geology, Remote Sensing and Geographic Information Systems (GIS), Fluvial Sedimentology, Mineralogy and Clay Geology.

TEACHING EXPERIENCE

Teaching Assistant | Sedimentology | National University of La Plata | Argentina

Nov 2018 - Apr 2022

Student Teaching Assistant Ad Honorem | Mineralogy & Petrology I | National University of La Plata | Argentina

Oct 2012 - Dec 2014

OTHER EXPERIENCE

Ruby Backend Developer | Surveyeah | Italy

Jul 2023 - Feb 2025

Java Backend Developer | Globant | Argentina

May 2021 - Aug 2022

Geologist | Department of Hydraulics, Faculty of Engineering, National University of La Plata | Argentina

Sep 2015 - Mar 2016

Geologist | BfU of Argentina S.A (Environmental consulting company) | Argentina

Mar 2015 - Sep 2015

Geologist | LCV S.R.L (Oil Company Services) | Argentina

Aug 2014 - Feb 2015

Geologist | Cementos Avellaneda (Cement manufacturing and quarrying company) | Argentina

Oct 2012 - Mar 2013

SKILLS

Administration & Organizational: Documentation and Record Management, Information Organization, Database Handling, Scheduling, Interdisciplinary Collaboration.

Scientific & Laboratory Methods: Data Analysis, Petrography, X-ray Diffraction and Fluorescence, Scanning Electron Microscopy, Inductively Coupled Plasma Mass Spectrometry, Sample Preparation, Analytical Workflows.

Digital & Technical : Java, JUnit, Ruby, Maven, Jenkins, DBEaver, SQL, SonarQube, Git, GitHub, Jira, Trello.

LANGUAGES

Spanish (Native), English (C1, Cambridge CAE), German (A2), Italian (A2)
